Diary No 660

Wesleyan Mission. Mysore City. July 26th. 1904

To The Secretary to the Government of Mysore,
Bangalore.

Sir,

I have the honour to bring before you the needs of the Hospital for Women and Children which we are erecting in the part of the City which is most densely crowded and which is most in need of Medica help. We have reason to know that the scheme is looked on with much sympathy by H.H. The Maharajah and we are greatly indebted to the Government for the interest it has already manifested in it and for the gift of the site for which we are profoundly grateful.

We are now proceeding with the erection of the Building The ground plan has been carefully drawn up after many consultations with the Senior Medical Officer of the State, the Medical Officers of The City and Doctors in different parts of India. The front elevation has been prepared by Mr. Stephens, Executive Engineer of Bangalore, and I have no hesitation in saying that when completed the Hospital will be an ornament to the Royal City of Mysore. Should the Government desire to have the plans before it, I shall be most pleased to forward them. The Buildings alone will cost us about Rs.100,000 and I most earnestly beg the Government to be kind enough to make us a Building Grant of one-third, or Rs.34,000.

We hope to have the Building ready for work by next March and as we shall have to incur heavy expenses immediately it is opened I am most anxious to enlist the sympathy of Government in this good work which, we hope, will prove growingly beneficial to the suffering women and children of the City. From experience gained in a precisely similar Mission Hospital in the South of India we feel that we shall have to face an ordinary monthly expenditure of at least Rs.600. This will not include the pay of the one or possibly two European Lady Doctors whom we hope shortly to have at work, or the cost of support of the European nurse or nurses, so that we are compelled to face a monthly expenditure of upwards of Rs.1000. I trust the Government will show its practical sympathy with this most beneficent work and allow us a monthly Grant-in-aid of Rs.400, which, I believe, is the grant given to a similar Institution in Bangalore. Altho' we shall not be in a position to claim the grant for some months, I shall be
